BIO

Sun69 is the name of the psytrance project by Hide Shozi, coming in the Blacklite Family straight from mad Tokyo, Japan. His musical roots go deep into teenage years, where he first hung a guitar in his arm performing Punkrock music. Then, a celestial encounter with the Psychedelic Scene in Hokkaido & Sendai has changed his perspective and he started DJing. He got known in the national Japanese scene, carrying out an intimate relationship with the Japanese Crews "Psyzen=Sen" and "Overdrive". He released his first collaborations with Artists by Nutek Recs, such as Vivid Loop and Pure Pressure. Now Sun69 has set his personal style into what he likes to define "aggressive Trance" and he's now fully focused on producing new music to delight our ears and dreams.
