BIO

Fabrizio Penna aka Sombbrero was born in Asti in 1983. Dj and promoter of Blacklite Records, he is playing in many underground parties, enjoying the truly psytrance freaky life style. Since he was young, he was completely in love with different kinds of music, sharing his feelings by his guitar, playing in a punk-rock band. After discovering psytrance parties in 2007, he decided to learn more about mixing and he started djing under the name of Sombbrero, that represents his mood. Heavy bass lines, psychedelic waves, trippy and funky sounds: this is Sombbrero's djset trademark. Now he is living in Barcelona, getting involved in the local scene and pushing abroad the Blacklite Records concept, feeling and music. He is also the alternative stage manager for the Own Spirit Festival, Spain.
