BIO

Kerry Seaswell began his journey through psychedelic trance in Nagoya, Japan in 1995 where he was introduced to Goa Trance. After leaving Japan in 1997, he eventually found the young Psy scene in Southern California. There he joined up with the PsyTribe crew, DJing and helping with promoting parties to the SoCal scene. In 2012, Swell joined with Tesseractstudios as a DJ, playing Serbia's finest progressive acts. Having a soft spot for Wildthings Records but staying faithful to prog, Swell found a middle ground between forest and prog and the result is what you hear today. Always trying to have find funk and humor in all his tracks, Swell takes us on a trip through the absurd with wreck less abandon.
